The feast we celebrate today, known as Corpus Christi or the Solemnity of the Most Holy Body and Blood of Christ, was established by Pope Urban IV in the year 1264. He did so in response to a reported Eucharistic miracle in the Italian village of Orvieto. As legend has it, the Eucharistic host bled when being offered in the hands of a doubting priest, Father Peter of Prague. This was, in essence, a manifestation of a miraculous presence in the hands of one who doubted the Real Presence.

This is a doubt that is all too common today, as well. Many Catholics have not been catechized well with regard to the Real Presence of Jesus in the Eucharist, and those outside of the Catholic Church believe it to be only Christ's symbolic presence, or at least that he is not *substantially* present. In proclaiming the Year of the Eucharist in 2004, Saint John Paul II said: "The Holy Eucharist contains the entire spiritual treasure of the Church, Christ Himself." He went on to encourage every Catholic to "rekindle this Eucharistic amazement" (*Ecclesia de Eucharistia*, par. 6).

We can only hope and pray that the true presence of Christ in the Most Blessed Sacrament of the altar will strengthen the faith of believers, remove doubts from the minds of skeptics, and serve as a reminder to all of us that the Eucharist is a miracle. Every Eucharist is a miracle. When we share in the miracle of the Eucharist, we share in Jesus' miraculous love for us and for all sinners.

Congratulations to the Newly Confirmed!  
May your lives radiate the love of God and the light of Christ for all  
the world to see! #BeKukui #ChristintheCenter

**"The Safety Committee has secured a donation of one Automated External Defibrillator (AED) from the Hilo Medical Center for the Parish.**

As part of the acceptance and deployment process for the AED, training(s) will be offered to parishioners. The first training is being tentatively planned for the week of June 21 - 25, 2021. More details will be forthcoming.

An AED, or automated external defibrillator, is used to help those experiencing sudden cardiac arrest. It's a sophisticated, yet easy-to-use, medical device that can analyze the heart's rhythm and, if necessary, deliver an electrical shock, or defibrillation, to help the heart re-establish an effective rhythm.

**AN ACT OF THANKSGIVING** O glorious Trinity! I praise You and give You thanks for the numberless benefits You have bestowed upon me. I thank You, O Heavenly Father, for having created me to Your own image and likeness, and for having preserved me to this day. I thank You, O merciful Son, for having redeemed me by Your death, and so often fed me with Your precious Body and Blood. I thank You, O Holy Spirit, for having cleansed my soul by Your grace in holy baptism, for having called me to the true faith, and so often washed me from my sins in the Sacrament of Penance. I thank You, O most bountiful God, for preserving me this night, and granting me this day to serve You. I earnestly invite all the saints of Heaven and Earth to join with me in praise and thanksgiving for Your infinite goodness.

*Pause a while, and call to mind the sins you may struggle with the most this day, and firmly resolve to avoid them.*

Adorable Jesus! Divine model of that perfection to which we should all aspire! I will endeavor this day to follow Your example; to be mild, humble, chaste, zealous, patient, charitable and resigned. Incline my heart to keep Your commandments. I am resolved to watch over myself with the greatest diligence, and to live soberly, justly and piously for the time to come. I will take care of my ways, that I may not offend with my tongue. I will turn away my eyes, that they may not see vanity, and I will be particularly attentive not to relapse this day into my habitual failings, but to struggle against them with Your gracious assistance. Enlighten my mind, purify my heart and guide my steps, that I may pass all my life in Your Divine Service. Amen.
